CANADIAN CRAFTS

I N T O R O N T O

As a member-based, not-for-profit arts service organization, The Ontario Crafts Council has championed the achievements of Ontario craftspeople for over thirty years.

Programming initiatives of the Council, including awards and scholarships, exhibits and innovative career-building programs, support craftspeople at every stage of their careers. While The Guild Shop has been delighting collectors and providing an income source for craftspeople for over seventy years, the Ontario Crafts Council Gallery promotes discourse and builds audiences for craft through fresh and ambitious exhibitions. Find out how the Council is growing contemporary craft in Ontario online at www.craft.on.ca.

The Volunteer Committee works with the Council to provide programs to craftspeople and to increase awareness of excellence in craft. Our fundraising efforts support many programs of the Council, awards and scholarships in particular.

For more information about the brochure, please call 416-925-4222 and leave a message for the Volunteer Committee.

Multiple Pieces. 2006. A Memory a Day. Pocket Protectors. Found Children's Clothing, Cotton Thread.

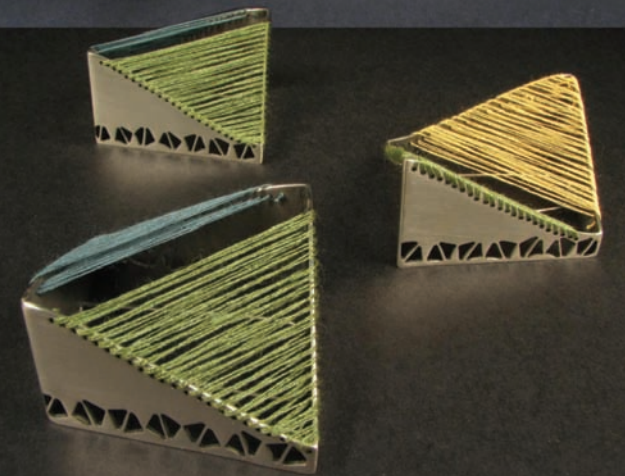

Bebhinn Jennings earned her BFA from Halifax NSCAD University in 2004, then was selected as an artist in residence at the Metal Studio at Harbourfront until 2007, and today she studies Historical Costume at Dalhousie University.

In 2004, Bebhinn participated in her first solo exhibition at the Anna Leonowens Gallery in Halifax. She won the Horizon Award from the Museum of Art and Design in New York and displayed her work at SOFA New York 2004. She has participated in numerous group exhibitions and has won other awards including the Women's Association of the Mining Industry Scholarship for Jewellery Design in 2007. Bebhinn is a founding member of the Craft Collective Domestic.

Bebhinn has explored different media, including plastics, sculpture, drafting, photography and textiles. Textiles have a great influence on Bebhinn's jewellery design, drawing inspiration from found materials, a vintage fabric that has lived a previous life before entering hers. She has developed a body of work that explores both value and materials, creating a dynamic between the tactility of unconventional materials and the formality of metal. Currently studying historical hand-stitching, construction and tailoring, Bebhinn's technical skills are being developed to enable more sculptural work in combination with her goldsmithing experience.
